ABOUT RECRUITING.

We all recognize the need for men te enilst and the urgant desire of the commanding officers of the various units in Hamilton to get the men. #### THEY COST MONEY.

Premier Borden has a great love for government by commission. Whenever he has a problem before him that he would rather not tackle, he appoints a commission to investigate and report. Investigations follow at some time or other, but reports are not always forthcomiss. These commission actives a commission of the way to the commission of the commission of the way to the way Premier Borden has a great love fo

of money, which could aveil the quarter million of collars considerably, Yet not later than last evening the Government required to take any action on its report, instead the Minister of Labor went out of his way to disparange it. However, among the commissions enumerated was an off riverdigitation of the state of the control of the c

sion appointed under the chairmanship is no report yet. Another Commission was that on the High Cost of Living. It spent two years looking into the question, cost a lot of money and the only result is a three volume report thas will come in handy as waste paper. All this money might as well have been thrown wavy. In fact, it would have been cheaper to do so.

Is the gift of an engagement ring by a lover to his sweetheart absolute or conditional? This question was before the Court of Review in Mont-real this week, but the court was not called upon to decide the question, the called upon to decide the question, the ring having been given up by the lady's brother-in-law. However, the lady was condemned to pay the costs in the case. While the case was being tried, counsel for the plaintiff rob-mitted that consideration must be first

given to the question whether an en-agement ring was an absolute or con-ditional gift. He said:

"I submit respectfully that .t is a conditional gift, the condition being the future marriage does not take couple. If the marriage does not take the said of the finance, then the gifts of jewelry—and particularly the caragement ring—ought to be returned to the finance, because it was all property."

Young ladles who receive proposals from young entitlemen and the safe side. Young laules who receive proposals from young gentlemen and who become the recipients of engage-ment rings and other trifles will do well to look upon such affts as having a string attached to them—gifts that y have to be returned if love does
